

Listing of Claims

1. (Currently Amended) A feed additive for equines, comprising dried glutamic acid fermentation solubles, dried corn fermentation solubles, and glutamic acid or a mixture of dried glutamic acid fermentation solubles and dried corn fermentation solubles, and glutamic acid, wherein said dried solubles have been dried to a total moisture content of less than 30% by weight at a temperature not less than 80°F and not more than 900°F.
2. (Original) The feed additive as claimed in claim 1, further comprising a carrier.
3. (Original) The feed additive as claimed in claim 2, wherein said carrier is wheat middlings.
4. (Canceled)
5. (Original) A method for feeding an animal, comprising feeding to said animal the feed additive of claim 1 in an amount of from 0.10 to 2.0 pounds per day.
6. (Original) The feed additive as claimed in claim 1, wherein said dried solubles are dried glutamic acid fermentation solubles.
7. (Original) The feed additive as claimed in claim 1, wherein said dried solubles are dried corn fermentation solubles.
8. (Original) The feed additive as claimed in claim 1, wherein said dried solubles are a mixture of dried glutamic acid fermentation solubles and dried corn fermentation solubles.
9. (Original) The method as claimed in claim 5, wherein said feed additive comprises said dried glutamic acid fermentation solubles.
10. (Original) The method as claimed in claim 5, wherein said feed additive comprises said dried corn fermentation solubles.
11. (Original) The method as claimed in claim 5, wherein said feed additive comprises said mixture of dried glutamic acid fermentation solubles and dried corn fermentation solubles.

12. (Currently Amended) A feed additive for animals, consisting of dried glutamic acid fermentation solubles, dried corn fermentation solubles, glutamic acid, or a mixture of ~~dried~~ glutamic acid, dried glutamic acid fermentation solubles and dried corn fermentation solubles, wherein said dried solubles have been dried to a total moisture content of less than 30% by weight at a temperature not less than 80°F and not more than 900°F.
